DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 12-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The phrases “the element of the first operand”, claim 12, lines 5-6; “the previously received bit”, claim 13, line 3 and claim 17, line 2; and “the current data bit”, claim 14, lines 2-3 and claim 18, line 2; lack clear antecedent basis. In line 6 of claim 12 a comma is lacking. Claims 14, 15, 17 and 18 are incomplete because they are dependent on cancelled claims. Claim 6, line 2; “compromising” lacks meaning in context. Claim 16, lines 3-4; the phrase “transmitting bits of a second operand serially” lacks meaning because to what are the bits transmitted? Claim 5, the “selecting” phrase of lines 5-8 is mis-descriptive because the selecting is dependent on both the current and the previous serial input bits. The “outputting” phrase of the last two lines of claim 16 is incomplete because the iteration that is required to produce the final product fails to be recited.

Allowable Subject Matter

2. Claims 12-18 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Specification

3. The abstract of the disclosure does not commence on a separate sheet in accordance with 37 CFR 1.52(b)(4). A new abstract of the disclosure is required and must be presented on a separate sheet, apart from any other text.

4. The material added after line 9 of page 2 via applicant's Preliminary Amendment of 24 January 2002 appears to be identical to the material in the last three paragraphs of page 2.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
